Procurement	single stage international competitive bidding procedure for admeasurement works contracts (FIDIC Pink Book)
Project Description	The Water Authority of Jordan with financing support from the German Development Bank (KFW) towards the cost of the Improvement of the “Energy Efficiency in the

	Water Sector II", intends to apply parts of the proceeds toward payments under the contract for "23/2023 - Improvement of the Energy Efficiency in the Water Sector II – LOT 2" .
Requested Services	<p>WAJ is inviting eligible bidders for Improvement of the Energy Efficiency in the Water Sector II -LOT 2 – Water Pipe installation for the reconstruction of the Primary and Secondary Water System in As Salt / Jordan, approximately 70 km of DI and HDPE pipes from OD63 to DN600 – Upper and Lower Area of As Salt, to submit their qualification documents and technical and financial bids.</p> <p>In the framework of the German Financial Cooperation with the Hashemite Kingdom of Jordan, financing was decided for the project "Energy Efficiency in the Water Sector II - Jordan".</p> <p>The Lot 2 of this project is a continuation of the project „Energy efficiency in the water sector / Energy Efficiency I“ (BMZ NR. 2010 66 398) – Lot 1</p> <p>The continued installation of the primary and secondary water network (Lot 1 - Middle Area of As Salt) of the Lower and Upper Area of As Salt (LOT 2). Only a holistic approach taken for the restructuring of the existing water supply system would allow optimization of the overall energy efficiency, and would at the same time help to reduce the high amount of Non-Revenue Water (NRW), leading to measurable and comparable improvements of the water supply. Measures for this Lot 2 shall be:</p> <ul style="list-style-type: none"> • Installation of the primary and secondary water network into independent pressure and supply zones; • Installation of district meter areas (DMAs); with • Provision of appropriate pressure management; • Design, construction and demolition of a concrete structure; • Provision of NRW reduction measures; as well as • Rehabilitation of some parts of the existing secondary and tertiary water network. <p>The implementation of all energy efficiency measures in the Energy Efficiency Project II are split into two lots (Lot 1 and Lot 2).</p> <p>Lot 2, implements installation works only in the primary and secondary water supply network in the Upper and Lower supply zone of As Salt.</p>
Project Duration	Lot 2: 24 months
