PART I - Response to Bidders' Questions

QUESTION 1:

1) In reference to Evaluation and Prequalification Criterion 4.3 -Specific Experience: Operation & Maintenance of WWTP, the requirements specify the following:

Operation and maintenance of WWTP:

a) Number: a minimum of two (2) O&M contracts (or DBO contracts with an O&M component), substantially completed as a prime contractor or subcontractor in similar projects with capacities of at least 8,000 m3 per day within the last ten years prior to application submission deadline. Each of the contracts required above shall meet the following minimum key requirements:

b) Duration: each with a two (2)-year minimum duration

c) Amount: each with a minimum value of Euro 3.00 million

Based on practical experience, the operation and maintenance cost doesn't necessarily reflect the contractor's actual capabilities to operate and maintain wastewater treatment plants.

Accordingly, the Employer is kindly requested to accept qualifications based on the successful completion of O&M taking into account the capacities of the WWTP as basis for the prequalification process.

RESPONSE 1:

Please, adhere to prequalification criteria in RFQ
